

Strategic Technology and Innovation Management Programme 2017

Aim

The purpose of this toolkit is to raise awareness about intrapreneurship and the practices intrapreneurs use to progress innovative initiatives in established firms, namely: creating space for imagination, crossing boundaries, making do, creating common interests and working on the self. It is designed to be used in a training or informal team building environment.

The Development Journey

Deliverables

- Creative Disruption Educational Toolkit Game Materials
- Background Literature/Research Findings
- Facilitation Notes
- Quick Reference Takeaway
